Baraarug Consulting firm

ABOUT BARAARUG CONSULTING FIRM

Baraarug Consulting Firm (BCF), established in 2012, is a leading professional services provider in Somalia delivering expert advisory, research, and capacity development services. The firm drives institutional growth, enhances governance, and fosters sustainable socio-economic development across the region.

BCF operates at the intersection of strategic policy, organizational development, financial management, research, and human capital development — delivering integrated solutions that translate knowledge into measurable impact. Operating across Somalia, Kenya, and Ethiopia, BCF brings deep regional expertise combined with internationally recognized frameworks.

Vision	To be a globally recognized consulting firm leading impactful change, strengthening institutions, and driving sustainable development across Somalia and beyond.
Mission	To deliver expert, innovative consulting solutions that empower clients to overcome challenges, drive excellence, and foster sustainable socio-economic growth.
Core Values	Excellence · Integrity · Innovation · Collaboration · Accountability · Transparency
Founded	2012 | Mogadishu, Somalia
Track Record	150+ Clients · 200+ Projects · 30+ Expert Consultants · 3+ Countries
Sectors	Government · Finance · NGOs · Private Sector · Academia · Development Partners

OUR SERVICES PORTFOLIO

BCF delivers a comprehensive range of professional services across nine specialized practice areas:

- **Strategic Policy & Governance:** Policy design, institutional strengthening, and governance reform advisory.
- **Audit, Assurance & Risk Management:** Internal audit, financial assurance, risk frameworks, and compliance systems.
- **Institution & Human Capital Development:** Organizational development, capacity building, and HR systems strengthening.
- **Research & Data Analysis:** Applied research, data analytics, M&E, and evidence generation.

- **Tax & Financial Management:** Tax advisory, financial systems, budgeting, and accounting services.
- **Monitoring & Evaluation:** M&E frameworks, impact assessment, and performance management systems.
- **Business Development Services:** Market entry, business planning, SME development, and investment advisory.
- **Education Consultancy:** Curriculum development, institutional accreditation, and education policy.
- **Environmental & Climate Change Consulting:** Environmental assessment, climate policy, and sustainability frameworks.

TRAINING PHILOSOPHY & APPROACH

BCF's training division applies an immersive, practice-oriented learning methodology that bridges theory and real-world application. Every program is structured around four pillars: conceptual grounding in evidence-based frameworks, case analysis of sector-relevant scenarios, simulation and skills application, and participant implementation planning within their own organizational contexts.

Collaborative peer learning, group problem-solving, and professional networking are embedded into every program. Post-training coaching, follow-up support, and digital certification are available to ensure learning translates into measurable institutional performance improvement.

Program Formats	In-person workshops · Virtual instructor-led · Blended learning · Executive retreats
Duration Options	1-day intensive · 3-day workshop · 5-day comprehensive · Custom-designed programs
Languages	English · Somali (selected programs)
Certification	BCF Certificate of Completion · Verified digital credentials available
Customization	All programs tailored to organizational context, sector, and participant seniority level
Schedule	Saturday – Thursday, 08:00 – 17:00 | Open & in-house enrollment available

WHO WE SERVE

BCF's training portfolio serves a wide spectrum of institutions and professionals across Somalia and the broader region:

- **Government Institutions:** Ministries, regulatory bodies, local government, and public agencies seeking governance, fiscal, and policy capacity.
- **Financial Organizations:** Commercial banks, microfinance institutions, development finance bodies, and insurance firms needing specialized finance training.
- **SMEs & Private Sector:** Small and medium enterprises, startups, and established businesses seeking growth, operational improvement, and market competitiveness.
- **Universities & Research Institutions:** Academic institutions and think tanks building analytical capacity in economics, research methodology, and policy.
- **Development Partners & NGOs:** International organizations, donor agencies, and NGOs requiring M&E, project management, and governance programs.
- **Emerging Leaders & Graduates:** Fresh graduates, young professionals, and emerging leaders building career-readiness and professional competencies.
- **Women Professionals:** Women in public and private sectors seeking leadership, financial literacy, and entrepreneurship programs.

01 BUSINESS ACADEMY

Strategic Planning · Transformation · Operations · Entrepreneurship

The Business Academy prepares professionals and organizations to navigate competitive markets, drive innovation, and build resilient operations. Programs span strategic planning, transformation, process improvement, supply chain management, and entrepreneurship — equipping participants with practical tools to lead from strategy to execution.

Course 1.1 — Strategic Business Planning and Execution

Equips participants with strategic planning competencies to set organizational direction, allocate resources effectively, and drive execution in competitive environments. Participants learn to analyze business environments, develop robust strategies, and build the systems to deliver results.

DURATION	FORMAT	LEVEL
5 Days	Workshop / In-person	Intermediate – Advanced

1. **Business Environment Analysis** — *PESTEL, Porter's Five Forces, and competitive landscape diagnostics.*
2. **Vision, Mission & Strategic Objective Development** — *Crafting compelling organizational direction aligned with stakeholder expectations.*
3. **Competitive Strategy & Value Creation Models** — *Differentiation, cost leadership, and blue ocean strategy frameworks.*
4. **Strategy Implementation & Execution Planning** — *Balanced Scorecard, OKRs, and strategic initiative management.*
5. **Performance Measurement, Dashboards & KPIs** — *Designing tracking systems and executive performance dashboards.*
6. **Strategy Review, Adaptation & Organizational Learning** — *Strategic review cycles, scenario planning, and adaptive management.*

✦ Key Learning Outcomes

- Conduct comprehensive environmental and competitive analysis
- Develop coherent strategies with clear execution roadmaps
- Design KPI frameworks and executive dashboards
- Lead strategy review and organizational adaptation processes

Course 1.2 — Business Transformation and Innovation

Provides participants with frameworks for leading complex business transformations, managing digital change, and embedding innovation as a core organizational capability. Designed for leaders navigating disruption and driving transformation.

DURATION	FORMAT	LEVEL

5 Days	Workshop / Blended	Senior Managers & Executives

1. **Drivers of Organizational Transformation** — *Technological, economic, and regulatory forces necessitating strategic change.*
2. **Digital Transformation Architecture** — *Cloud, AI, data analytics, and enterprise systems as enablers.*
3. **Innovation Management & Agile Experimentation** — *Design thinking, lean startup, and rapid prototyping methodologies.*
4. **Business Model Redesign & Value Innovation** — *Platform models, ecosystem strategies, and business model canvas.*
5. **Change Management & Organizational Alignment** — *Kotter's 8-step model, ADKAR, and managing the human side of change.*
6. **Transformation Governance & Impact Measurement** — *PMOs, governance structures, and measuring transformation ROI.*

✦ Key Learning Outcomes

- Diagnose transformation readiness and design change strategies
- Apply digital technologies as strategic enablers
- Lead organizational change using proven frameworks
- Measure and govern transformation programs effectively

Course 1.3 — Business Process Improvement

Develops participants' ability to identify inefficiencies, redesign workflows, and build continuous improvement cultures. Drawing on Lean and Six Sigma, participants learn to deliver measurable operational improvements.

DURATION 4 Days	FORMAT Workshop / In-person	LEVEL Operations & Mid-Level Managers

1. **Process Mapping & Workflow Diagnostics** — *SIPOC analysis, value stream mapping, and root cause identification.*
2. **Lean Management & Six Sigma Foundations** — *Waste elimination, DMAIC methodology, and quality improvement tools.*
3. **Automation & Digital Process Optimization** — *RPA, workflow automation, and technology-enabled efficiency gains.*
4. **Productivity Measurement & Benchmarking** — *Baseline setting and impact measurement of improvement initiatives.*
5. **Continuous Improvement Culture & Leadership** — *Building Kaizen culture and sustaining organizational improvement.*
6. **Implementation Roadmaps** — *Prioritization, piloting, scaling, and embedding process improvements.*

✦ Key Learning Outcomes

- Map and diagnose processes using industry-standard tools
- Apply Lean and Six Sigma to eliminate waste and improve quality

- Design automation and digital optimization strategies
- Build and sustain organizational continuous improvement cultures

Course 1.4 — Value Chain and Operations Management

Covers the full spectrum of value chain analysis and supply chain strategy, providing frameworks to optimize operations, manage costs, and build resilient supply systems for competitive advantage.

DURATION	FORMAT	LEVEL
4 Days	Workshop / In-person	Operations & Supply Chain Professionals

1. **Value Chain Analysis & Competitive Advantage** — *Porter's value chain and activity-based competitive positioning.*
2. **Supply Chain Design & Inventory Strategy** — *Network design, inventory optimization, and demand forecasting.*
3. **Procurement Strategy & Logistics Optimization** — *Strategic sourcing, contract management, and logistics performance.*
4. **Operational Cost Management & Technology Integration** — *Cost driver analysis, ERP systems, and technology-enabled efficiency.*
5. **Supply Chain Risk & Resilience Management** — *Risk mapping, contingency planning, and supply chain resilience.*
6. **Operations Performance Metrics & Monitoring** — *OEE, OTIF, and real-time performance management frameworks.*

✦ Key Learning Outcomes

- Conduct comprehensive value chain analysis
- Design resilient and cost-efficient supply chain systems
- Implement strategic procurement and logistics frameworks
- Monitor and improve operations using data-driven performance tools

Course 1.5 — Entrepreneurship and Startup Management

Equips aspiring and early-stage entrepreneurs with strategic, financial, and operational competencies to launch, grow, and sustain successful ventures. The program bridges entrepreneurial theory with practical startup management tools.

DURATION	FORMAT	LEVEL
5 Days	Bootcamp Format	Entrepreneurs & SME Leaders

1. **Opportunity Identification & Market Validation** — *Customer discovery, problem-solution fit, and market sizing.*
2. **Business Model Development** — *Business Model Canvas, Lean Canvas, and revenue model design.*
3. **Startup Financing & Investment Strategy** — *Bootstrapping, angel investment, venture capital, and crowdfunding.*

4. **Growth Strategy & Scaling Models** — *Product-market fit, growth hacking, and operational scaling.*
5. **Entrepreneurial Risk Management** — *Uncertainty navigation, pivot strategies, and resilience planning.*
6. **Exit Strategy & Venture Sustainability** — *M&A, succession, and building long-term enterprise value.*

✦ Key Learning Outcomes

- Validate business opportunities using structured market analysis
- Design compelling business models and go-to-market strategies
- Navigate startup financing and investor relations
- Build scalable, resilient, and sustainable ventures

02 ECONOMICS ACADEMY

Policy Analysis · Fiscal Management · Development Finance

The Economics Academy builds analytical capacity for evidence-based policy design, fiscal management, and economic governance. Programs serve government economists, policy analysts, public finance officials, and development professionals who need rigorous tools to navigate complex economic environments.

Course 2.1 — Applied Economic Policy Analysis

Develops participants' capacity to design, analyze, and evaluate economic policies using rigorous analytical tools. Participants gain proficiency in translating economic evidence into actionable policy recommendations across fiscal, trade, monetary, and social policy domains.

DURATION	FORMAT	LEVEL
5 Days	Workshop / In-person	Policy Analysts & Economists

1. **Policy Frameworks & Institutional Economics** — *Regulatory design, incentive structures, and institutional analysis.*
2. **Data-Driven Policy Design** — *Using national accounts, household surveys, and economic data in policy.*
3. **Impact Evaluation Methods** — *RCTs, difference-in-differences, and propensity score matching.*
4. **Cost-Benefit & Policy Prioritization Tools** — *Multi-criteria analysis, CBA, and resource allocation under constraints.*
5. **Behavioral Economics for Public Policy** — *Nudge theory, behavioral insights, and designing for behavior change.*
6. **Policy Communication & Stakeholder Engagement** — *Evidence translation, policy briefs, and consultation frameworks.*

✦ Key Learning Outcomes

- Apply economic frameworks to complex policy design challenges
- Conduct impact evaluations and cost-benefit analyses
- Apply behavioral economics insights in public policy
- Communicate complex analysis to non-technical audiences

Course 2.2 — Public Sector Economics and Fiscal Management

Addresses the full spectrum of public finance and fiscal management challenges facing government institutions. Participants develop competencies in revenue mobilization, budget management, fiscal risk assessment, and expenditure efficiency.

DURATION	FORMAT	LEVEL
5 Days	Workshop / In-person	Public Finance Officials & Budget Directors

1. **Government Finance Structures & Revenue Systems** — *Tax administration, non-tax revenues, and intergovernmental fiscal relations.*
2. **Tax Policy & Domestic Resource Mobilization** — *Tax design, compliance systems, and expanding the revenue base.*
3. **Budget Formulation & Medium-Term Fiscal Frameworks** — *MTEF design, program budgeting, and budget transparency standards.*
4. **Fiscal Risk Management & Debt Sustainability** — *Fiscal risk registers, contingent liabilities, and DSA frameworks.*
5. **Public Expenditure Efficiency & Service Delivery** — *Value-for-money analysis, PFM diagnostics, and expenditure reviews.*
6. **Fiscal Reform & Long-Term Sustainability** — *Revenue reform sequencing, fiscal consolidation, and long-term planning.*

✦ Key Learning Outcomes

- Design medium-term fiscal frameworks and program budgets
- Assess and manage fiscal risks and debt sustainability
- Improve public expenditure efficiency and service delivery
- Lead fiscal reform and revenue mobilization strategies

03 FINANCE ACADEMY

Strategic Finance · Analysis · Risk Management · Governance

The Finance Academy delivers professional finance education for financial managers, CFOs, analysts, and governance professionals. Programs address strategic financial management, financial analysis, risk management, and oversight — building the financial intelligence required for sound decision-making.

Course 3.1 — Strategic Financial Management

Develops senior financial leaders' capacity to align financial strategy with organizational objectives, optimize capital structure, manage financial risk, and drive value creation. Addresses strategic financial management at CFO and senior leadership level.

DURATION	FORMAT	LEVEL
5 Days	Executive Workshop	CFOs, Finance Directors & Senior Managers

1. **Financial Strategy & Value Creation** — *Linking financial decisions to organizational value and competitive positioning.*
2. **Capital Structure & Financing Decisions** — *Optimal capital mix, debt-equity tradeoffs, and cost of capital analysis.*
3. **Investment Appraisal & Capital Allocation** — *NPV, IRR, ROCE, and capital allocation for strategic investments.*
4. **Financial Risk Management Tools** — *Hedging strategies, derivatives basics, and integrated risk frameworks.*
5. **Corporate Governance & Financial Oversight** — *Board responsibilities, internal controls, and audit committee governance.*
6. **Strategic Financial Performance Management** — *EVA, ROIC, and strategic financial performance reporting.*

✦ Key Learning Outcomes

- Develop financial strategies aligned with organizational goals
- Optimize capital structure and manage cost of capital
- Appraise strategic investments using rigorous frameworks
- Design integrated financial risk management and governance systems

Course 3.2 — Financial Analysis, Planning and Control

Provides analytical tools to interpret financial statements, build robust financial models, and design control systems supporting management decision-making. Suitable for financial analysts, controllers, and planning professionals.

DURATION	FORMAT	LEVEL
4 Days	Workshop / In-person	Financial Analysts & Planning

1. **Financial Statement Interpretation** — *Reading and analyzing income statements, balance sheets, and cash flow statements.*
2. **Ratio Analysis & Performance Diagnostics** — *Liquidity, profitability, solvency, and efficiency ratio analysis.*
3. **Cash Flow Modelling & Working Capital Management** — *Cash forecasting, liquidity management, and working capital optimization.*
4. **Forecasting & Scenario Planning** — *Driver-based forecasting, sensitivity analysis, and scenario modeling.*
5. **Performance Control Systems** — *Budget vs. actual analysis, variance reporting, and control frameworks.*
6. **Financial Decision Support Frameworks** — *Management accounting tools for operational and strategic decisions.*

✦ Key Learning Outcomes

- Analyze and interpret financial statements with professional proficiency
- Build driver-based forecasting and scenario planning models
- Design management control and performance reporting systems
- Provide high-quality financial analysis for executive decision-making

04 MARKETING & SALES ACADEMY

Brand Strategy · Customer Growth · Digital Marketing · Revenue

The Marketing and Sales Academy equips professionals with strategies and tools to build powerful brands, engage customers, and drive sustainable revenue growth. Programs address strategic marketing planning and comprehensive sales management — from market analysis through customer acquisition, retention, and revenue optimization.

Course 4.1 — Strategic Marketing Planning

Develops participants' ability to create comprehensive marketing strategies that drive brand equity, customer acquisition, and revenue growth. Participants learn market analysis, brand positioning, integrated campaign design, and marketing performance measurement.

DURATION	FORMAT	LEVEL
5 Days	Workshop / Blended	Marketing Managers & Brand Strategists

1. **Market Segmentation & Competitive Analysis** — *STP framework, customer segmentation, and competitive intelligence.*
2. **Brand Positioning & Customer Value Proposition** — *Brand architecture, positioning maps, and compelling value propositions.*
3. **Marketing Mix Strategy Development** — *Integrated product, price, place, and promotion strategy formulation.*
4. **Marketing Budgeting & Resource Allocation** — *ROI-based budgeting and channel investment optimization.*
5. **Marketing Analytics & Customer Insights** — *Customer lifetime value, attribution modeling, and data-driven decisions.*
6. **Campaign Evaluation & Strategic Learning** — *A/B testing, campaign post-mortems, and continuous improvement.*

✦ Key Learning Outcomes

- Conduct market segmentation and competitive landscape analysis
- Develop compelling brand positioning and value propositions
- Design data-driven campaigns with measurable objectives
- Measure marketing effectiveness and optimize investments

Course 4.2 — Sales Management and Revenue Growth

Equips sales leaders and managers with frameworks to build high-performing sales organizations, design effective processes, and drive consistent revenue growth. Covers the full sales management cycle from pipeline development to performance optimization.

DURATION	FORMAT	LEVEL

4 Days	Workshop / In-person	Sales Managers & Revenue Leaders

1. **Sales Funnel Design & Pipeline Management** — *Designing stages, conversion metrics, and pipeline health monitoring.*
2. **Territory Planning & Market Coverage** — *Geographic and account-based territory design for maximum coverage.*
3. **Sales Forecasting & Revenue Planning** — *Statistical forecasting methods, revenue planning, and quota setting.*
4. **CRM Strategy & Customer Intelligence** — *CRM implementation, customer data management, and intelligence-driven selling.*
5. **Sales Performance Measurement** — *KPIs, scorecards, and incentive structures for sales teams.*
6. **Continuous Improvement in Sales Organizations** — *Sales coaching, process optimization, and learning sales cultures.*

✦ Key Learning Outcomes

- Design effective sales processes and pipeline systems
- Build territory strategies and revenue forecasting frameworks
- Implement CRM systems and leverage customer data for growth
- Create performance management systems that drive sales excellence

05 LEADERSHIP ACADEMY

Transformational Leadership · Change · High-Performance Teams

The Leadership Academy develops adaptive, transformational, and strategic leadership capabilities required in today's complex and rapidly changing environments. Programs are designed for current and emerging leaders across government, private sector, and civil society — equipping them to inspire teams, drive change, and build resilient organizations.

Course 5.1 — Transformational Leadership

BCF's flagship leadership program develops participants' capacity to lead organizational transformation, inspire high-performance cultures, and build sustainable resilience. Combines evidence-based frameworks with deep self-reflection, peer learning, and practical application exercises.

DURATION	FORMAT	LEVEL
5 Days	Executive Retreat / Workshop	Senior Leaders & Executives

1. **Leadership Vision & Strategic Alignment** — *Developing and communicating compelling visions aligned with organizational strategy.*
2. **Change Leadership Frameworks** — *Kotter's 8-step model, ADKAR, and leading organizational change with confidence.*
3. **Motivation, Engagement & Trust Building** — *Psychological safety, self-determination theory, and high-trust culture building.*
4. **Innovation Leadership & Learning Culture** — *Creating conditions for organizational innovation and continuous learning.*
5. **Leadership Impact Measurement** — *360° feedback, effectiveness assessments, and personal development planning.*
6. **Sustainable Leadership & Organizational Resilience** — *Leading through adversity, succession planning, and institutional resilience.*

✦ Key Learning Outcomes

- Articulate and communicate a transformational leadership vision
- Lead complex organizational change using proven frameworks
- Build psychological safety, trust, and high-performance cultures
- Develop personal leadership effectiveness plans with measurable goals

ADDITIONAL TRAINING PROGRAMS

In addition to our five core academies, BCF offers the following specialized programs addressing critical development needs across Somalia and the region:

Women's Leadership Program

Target Group: *Emerging & mid-career women professionals, CSO leaders, public servants*

Equips women with the leadership, communication, and decision-making skills needed to excel in both public and private sector roles. The program promotes gender-inclusive leadership and builds confidence, public speaking, and civic leadership capabilities.

- Promote gender-inclusive leadership practices
- Build self-confidence and public speaking capabilities
- Encourage civic and organizational leadership among women
- Develop professional networks and peer support systems

Team Building & Capacity Development

Target Group: *SME teams, NGO staff, startup founders*

Team-building and capacity development training to improve collaboration, motivation, and productivity within SMEs and NGOs. Focuses on strengthening team dynamics, communication, conflict resolution, and aligning teams with organizational vision.

- Strengthen team dynamics and conflict resolution skills
- Improve communication and task ownership
- Align teams with organizational vision and strategy
- Build high-performing, motivated, and collaborative teams

ERP Systems Training (Digital & Data Skills)

Target Group: *SMEs, fresh graduates in business/IT, NGOs*

Hands-on training for staff and youth on using ERP systems for finance, HR, inventory, and operations management. Introduces data-driven decision-making, reduces paperwork, and improves organizational transparency and efficiency.

- Use ERP systems for core business functions
- Apply data-driven decision-making in organizational contexts
- Improve organizational efficiency through digitization
- Reduce manual processes and enhance transparency

Career & Employability Skills

Target Group: *Fresh graduates, final-year students*

Job-readiness program focused on real-world skills for workplace success. Builds practical soft skills including CV writing, interview preparation, digital literacy, and professional workplace etiquette.

- Write professional CVs and prepare for interviews
- Develop digital literacy and technology workplace skills
- Build professional communication and workplace etiquette
- Navigate the job market and career planning effectively

Professional Certifications Preparation

Target Group: *Working professionals seeking career advancement*

Foundation and preparation courses for globally recognized professional certifications. Covers Project Management (PMP, PRINCE2), Finance (CPA, ACCA), Monitoring & Evaluation, and Human Resource Management essentials.

- Prepare for PMP and PRINCE2 project management certifications
- Build foundations for CPA and ACCA finance qualifications
- Develop M&E and HRM professional competencies
- Map a personal professional certification pathway

Women Inclusion Financing Program

Target Group: *Women entrepreneurs, rural women groups, cooperatives*

Financial literacy and access-to-credit program focused on empowering women-led businesses. Builds capacity to access formal financial services, understand savings, credit, and investment, and links women to microfinance and funding opportunities.

- Access and navigate formal financial services
- Understand savings, credit, investment, and debt management
- Develop bankable business plans to access financing
- Connect with microfinance institutions and funding networks

ENROLLMENT & REGISTRATION

BCF offers flexible enrollment options to accommodate organizational schedules, group sizes, and geographic requirements. Programs are available as open-enrollment public workshops, customized in-house training, and blended virtual formats.

Open Enrollment	Register individuals or groups in scheduled public programs. Ideal for professional development and cross-organizational peer learning.
In-House Training	Custom-designed programs delivered exclusively to your organization. Content, cases, and delivery tailored to your specific institutional context.
Virtual / Blended	Live online instructor-led programs with interactive digital content — accessible across geographies with full engagement tools.
Executive Programs	Bespoke executive retreats and leadership development journeys for senior leadership teams and boards.
Consulting + Training	Training programs integrated with BCF advisory engagements for organizations undergoing strategic transformation.
Certification	BCF Certificate of Completion issued for all programs. Verified digital credentials available via our Certificate Portal.
